

St John Street public realm project

Share your ideas for improving the quality of the streets
and space in the St John Street area

As part of the council's efforts to create greener, healthier streets, we will be working with residents, local workers and local businesses to deliver a new public open space in St John Street that puts people and their wellbeing first, consistent with the 'Healthy Streets' approach, and contributes positive social, economic and environmental benefits. Formal consultation is likely to take place in Autumn 2024.

Before we finalise our proposals for consultation, we want to hear specifically from local businesses about your access and delivery and servicing requirements, as well as your aspirations for the area.

Business Survey

The survey will be open between 27 August and 10 September.

Business Engagement

The council will be visiting businesses in late August and early September.

Scan the QR code above or visit the following link: <https://rb.gy/46mvs8> If you would like the survey link to be emailed to you, or you require a more accessible paper copy, please email StJohnStreet@islington.gov.uk
